1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 2, drawn to an in-mold coating formation method injection time and clamping.

Group II, claim(s) 3 and 4, drawn to an in-mold coating formation method toggle stroke and force.

Group III, claim(s) 5 and 6, drawn to an in-mold coating formation apparatus with specific stroke sensors, memory and control parts.

Group IV, claim(s) 7 and 8, drawn to an in-mold coating formation mold with auxiliary cavity dimensions.

Group V, claim(s) 9 and 10, drawn to an in-mold coating formation method with formation of a gap by shrinkage of an auxiliary molded body.

Group VI, claim(s) 11 and 12, drawn to an in-mold coating formation method with a pressure arriving at higher than 0.5 MPa.

Group VII, claim(s) 13, drawn to an in-mold coating formation method with the temperature of the molded product increasing to greater than the curing temperature of the coating material.

2. The inventions listed as Groups I through VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. Each group has a specific special technical feature and the common feature of in-mold coating is known in the art as described in the specification and disclosed in the patents list on page 2, lines 21-23 of the specification.

4. A telephone call was made to Bill Kratz on March 1, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
